

## **Neil Lutwyche**

To support my application to become a Director at Enfield Town FC I would like to highlight my background and current involvement with the club.

I was born in 1973 and grew up in Enfield, therefore I have a good knowledge of the local area and community.

Historically I have worked in banking and been a branch manager for 7 years looking after staff, processes, customers and business performance.

In more recent years I have worked in home improvements gaining customers from recommendations.

I began my journey with Enfield Town when I assisted an existing manager with his team about 6 years ago. I soon became very excited by the opportunities the club provided and I have been vice chairman of the boys youth section for 5 years, during which time I have worked in a small team to build from 8 teams to the current number of 24, approximately 280 children.

I have also worked in and am a board member of the community and registered charity of Enfield Town FC. I provide admin support weekly and help to drive the concepts forward for the benefit of all participants and Enfield Town FC.

Most recently I have been attending networking meetings and building relationships to provide new opportunities and awareness at Enfield Town FC. I feel this is where my strengths lay and if successful in my application this would be where I see my best contributions could be made to support the clubs plans to drive forward.
